AVMB organized a refreshing educational trip to Mandvi for Class X students after their board exams. Blending relaxation with learning, the visit included historical sites, temples, and the beach. This memorable day offered cultural insights, spiritual reflection, and joyful bonding—rejuvenating students while deepening their appreciation of heritage and nature.

Drops of Change: Thoughtful Art by Classes VI & VII on Water Day March 22th, 2025

On the occasion of World Water Day, students of Classes VI and VII at AVMB showcased their creativity by making impactful posters to raise awareness about water conservation. With colorful drawings and strong messages like "Save Water, Save Earth," they inspired everyone to value and protect our planet's precious resource.

Change Maker Series Episode 7

A Day of Learning and Leadership

March 28th, 2025

AVMB hosted Episode 7 of the Changemaker Series, featuring Dr. Awa Shukla and Ms. Nitaben Nagori. The session empowered 213 students by enhancing confidence, communication, and leadership skills. Through inspiring stories and interactive discussions, students explored education, media, and personal growth, igniting motivation for a purposeful future.

Providing Relief to Birds This Summer

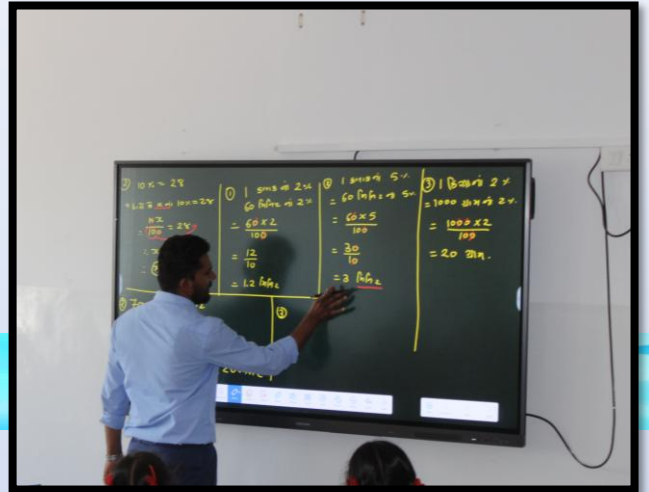

AVMB's Eco Club instilled compassion through a summer initiative where students made and placed water bowls for birds. Reflecting their environmental concern, children actively contributed by crafting or purchasing bowls, ensuring thirsty birds find relief. This thoughtful act promotes empathy, responsibility, and harmony with nature—nurturing eco-conscious citizens for tomorrow.

Empowering Educators Through Interactive Panel Training

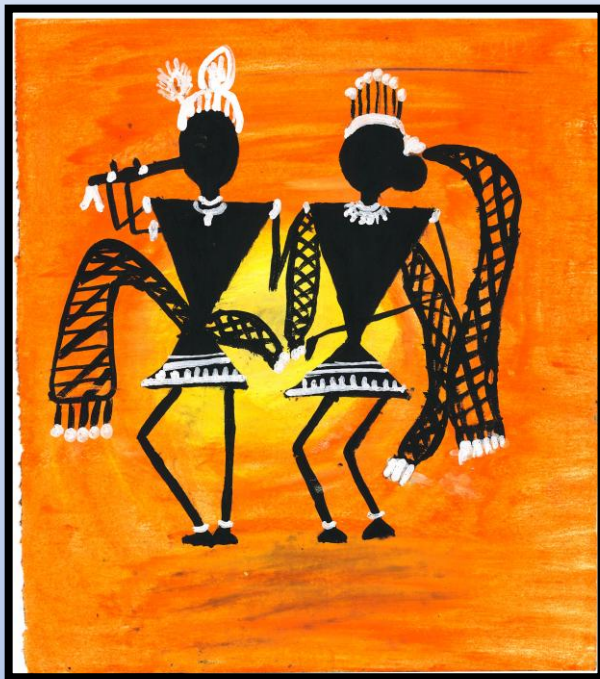

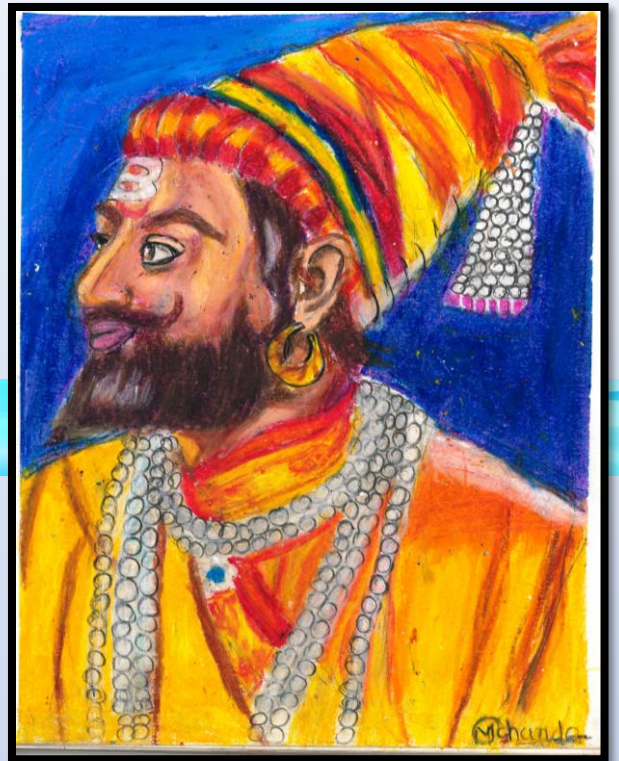

To enhance digital teaching methods, an interactive panel training session was organized for teachers at AVMB. The training aimed to empower educators with smart classroom tools, ensuring effective student engagement. Teachers actively participated and explored features of the panel, gaining valuable hands-on experience in using technology for enriched teaching-learning experiences.

AVMB's Smart Shift to Smarter Learning

AVMB is now a fully Wi-Fi-enabled campus, integrating 11 interactive panels and 6 smart TVs to enhance ICT-based learning. These advanced tools promote engaging, multimedia lessons that boost clarity, comprehension, creativity, and digital skills, preparing students to thrive in a tech-driven world through active participation, collaboration, and critical thinking.

In March, AVMB celebrated culture and courage through expressive art.

Students showcased their artistic talents by creating vibrant Warli paintings that captured tribal life with grace and rhythm. Additionally, inspiring portraits of Chhatrapati Shivaji Maharaj honored his valor and leadership. These artistic expressions deepened cultural understanding, enriching the school's creative atmosphere with pride and tradition.

Creative Beats: Crafting Musical Masterpieces

At AVMB, Period 9 is regularly dedicated to skill development. Students engage in creative activities like art, craft, and painting. Recently, they made impressive models of traditional musical instruments such as the TABLA, DHOL, and harmonium. These hands-on tasks nurture creativity, cultural awareness, and artistic expression among students.

Regular Theme-Based Assemblies at AVMB

At AVMB, regular theme-based assemblies enrich learning with joy and values. Recent assemblies on International Day of Happiness and Holi encouraged emotional well-being, cultural pride, and unity. Through plays, songs, and reflections, students express creativity, build confidence, and celebrate life—nurturing holistic development in an engaging and meaningful way.

Enhancing Learning Through Activity-based Education

AVMB ensures regular and continuous implementation of activity-based learning in SKG. Engaging tasks like balancing games help enhance gross motor skills, body coordination, and focus. Such playful yet purposeful activities make learning joyful, support holistic development, and lay a strong foundation for the child's physical and cognitive growth.
